With a collection comprising over 140 cars, the Queensland Auto Museum is home to vintage, veteran and classic vehicles.

*We're in business for the fun of it!
From Model T to HSV*

View the vehicles that helped to shape both Australia's motoring and social history and discover some of the unique stories of the owners behind them. Our guided tours run all day for a more interactive experience.

From Model T to HSV - we're in business for the fun of it

Situated 20km north of Toowoomba just off the New England Highway

The museum covers over 3000 square meters of floor space and is divided into a main display pavilion, a working workshop and a stationary engine display shed.

It is home to over 140 vintage, veteran, classic & modern vehicles. The collection contains a number of rare vehicles, often in original condition. Included in this collection are Muscle Cars (XU1 Torana, SS Torana, Camaro & Various HSV's) and a Peter Brock collection, covering his Ford and Holden eras and includes the rare LadaSamara.

Roy Gorrington - owner and enthusiast - is painstakingly combing the entire country, in the process forming the most diverse and one of the largest privately owned collections of Australian cars and memorabilia in Australia.

Join our specialised tour and view the vehicles that helped shape both Australia's motoring and social history and discover some of the unique stories of the owners behind them. You may even get a private tour of the workshop, which houses the "extinct" cars and our "Barn Finds", models such as Monaro, Broughan, HQSS, Hotrods, Buchanan and various early Panelvans and Utes.

Notable Collections:

- Peter Brock and his cars - His Holdens, Fords and a Lada.
- Joe Bjelke-Peterson's Jag and the Fitzgerald inquiry.
- Slim Dusty's Replica 1935 Caravan - Bumbling Bertha.
- Rock-n-Roll George and the replica of his much loved Holden.

Some cars collected are still in the original state of the first owner and some show Australian history and the way we "hotted

up" the cars, cars from 60's, 70's and 80's and you will hear words like Speco, Impala, Frenched Aerials, Air Horns, spats, x2 Polariser, Sandman, Sundowner, Drifter and 'tar top battery'

You will find the Museum is much more than just a collection of vehicles; it is about the people behind the vehicles and their era and has period memorabilia from the 20s through to the 90s surrounding the collection.
